

25 years of Chemistry and Physics of Interfaces

Friday, March 14, 2025

Session 4: Scientific Talks - FIT (3:30 PM - 5:15 PM)

time	[id] title	presenter
3:30 PM	[36] Field-Assisted Processing of Polymer Composites: Nature-Inspired Design for Living Multifunctional Materials	Prof. OUNAIES, Zoubeida
3:50 PM	[37] Understanding the proton conductivity and stability of phosphoric acid doped polybenzimidazole membranes for high temperature proton exchange membrane fuel cells	Prof. ZHANG, Haining
4:10 PM	[8] AI/ML in Polymer Materials and Additive Manufacturing	Prof. ADVINCULA, Rigoberto
4:30 PM	[38] From CPI and back - a 20-year scientific journey	Dr KONRADI, Rupert
4:50 PM	[39] Věni, vīdī, imprimāvī 3D: Why we need 3D Printing to be better than the Romans	Prof. RAPP, Bastian
5:10 PM	[41] Closing Remarks	Prof. RÜHE, Jürgen
